Most foster pets arrive already spayed/neutered, but in the event that one is awaiting surgery, do you understand that you CANNOT breed your foster pet?

If your foster pet becomes ill, will you contact a SSAR foster liaison immediately (numbers provided below)?

Do you need assistance with food for your foster pet?

Are you prepared to provide this animal with indoor shelter, adequate food, water and attention, and to make a commitment to care for this animal until a permanent home can be located?

Indicate Yes / No Initial: _____

All existing animals in the household must be spayed/neutered and up-to-date, routine vaccinations. We strongly recommend your dogs have the Bordatella vaccination to help provide protection against kennel cough. If you need assistance in spay/neutering an intact animal, we can provide information on discount spay/neuter options in our community.

Animals in our care come to us temperament tested, but since most animals come to us with no known history, we cannot always predict an animal's behavior in a new home. We recommend the animal be kept in an isolated part of the house until the foster parent learns more about the behavior of the animal. The "isolated" room also serves to help rule out incubating viruses that the animal may have when it was health checked, and at the same time helps protect your household pets. If you are interested in fostering we strongly recommend you speak with your vet about any additional vaccinations or precautions you should take.

Resident pets in the foster home run the risk of contracting contagious illnesses from foster pet. Please be aware that SSAR is unable to cover any medical costs incurred by your resident pets as a result of exposure to your foster pet.

Initial: _____

Do you feel comfortable explaining to your friends and others that these animals are not yours to adopt out? The animals belong to SSAR and adopters must go through the standard SSAR adoption process.

Do you understand that these animals belong to SSAR? And do you feel emotionally able to relinquish this pet to an adopter or to another foster home when necessary?

Indicate Yes / No Initial: _____

How would you like us to contact you?

E-mail? Call during the day. Call during the evening.

Best number and/or e-mail to use:

If a pet is placed in a foster situation with you, SSAR will provide routine and emergency veterinary care through designated veterinarians. Foster pets are NOT to be treated by unauthorized veterinarians except in the case of extreme emergency. In the case of extreme emergency, after hours, you agree to make every reasonable effort to contact a SSAR representative so our vets can be contacted. Expenses resulting from unauthorized routine care will be the responsibility of the foster parent.
